Web designer:

I am a highly motivated, confident professional, with good organisational skills. I am looking for a permanent Web Designer position within the West Midlands. I have over 2 years experience in e-industry environments and a First Class honours design degree from Wolverhampton University.

I am used to working both on my own and in teams for external clients and internal marketing departments, taking briefs for a wide variety of media work including Ecommerce / Brochure based Websites and designing for Print.

Skills:

- Web Design: Excellent understanding of HTML/XHTML and CSS.
- Practical experience of implementing JavaScript based jquery / scriptaculous functionality into a website environment.
- Conversant and passionate about Webs Standards and W3C compliance.
- Good understanding of design and implementation for Ecommerce environments.
- SEO: Experience optimising websites for Search Engines whilst simultaneously optimising them for users/clients.
- Ability to work all stages of a project from Inception to Completion.

Experience:

April 2007 – September 2009: E2E Solutions.

2+ years as Web Designer for E2E Solutions (www.e2esolutions.co.uk) as part of the design team. My responsibilities included : Liaising with clients, design and xhtml/css integration of Brochure and Ecommerce Web sites, banner ad design and implementation including javascript / flash, various size advertisements for print, w3c standards adherence, logo design and quoting for new work.

Other Qualifications:

Full Driving License
ROSPA (Health and Safety)
FLT License (Action)
First Aid (St John's)
Crane License (Action)
PADI (Open Water)

Other Responsibilities:

Production Supervisor
Quality Control Deputy
Fire Marshall
Delegated First Aider
PC Maintenance

Interests (related):

PC building
PC Configuration
Networking
Building Websites
Experimenting with CSS
Designing posters and ads

Other Interests:

Cinema
Internet gaming
Reading
Theatre
Rock concerts
